To: *and faculty* Students interested in civil rights

During the spring vacation this year there will be an opportunity for students to participate in a voter education and registration project in either Petersburg or Lynchburg, Virginia. There is a great deal of discussion on this campus about civil rights, but few opportunities arise to do something, since the summer vacation is a time in which many students have to work. This voter registration project during spring vacation is a good chance for students to get involved in civil rights work and also to find out something about conditions in the South.

The program is sponsored by the national YWCA. It will involve a short period of orientation and five or six days of work. The students who go on the project will live in homes in the city in which they work.

If you are interested in participating in this project, please contact me at German House within a week.

*Please urge interested students to participate*
